BP Summer Internship Programmes 2025

At BP, we are driven by a shared purpose to reimagine energy for a sustainable future. As one of the world's leading energy companies, we are pushing the boundaries of innovation to meet the world's energy demands while reducing our carbon footprint. Our internships offer you the chance to be part of that transformative journey, giving you unparalleled exposure to the world of energy and sustainability.

Why BP?

Our internship programme offers you the chance to immerse yourself in impactful projects and gain invaluable hands-on experience in one of the world's most exciting and technically challenging industries. At BP, we value your development, offering structured training, mentoring, and an opportunity to connect with like-minded individuals passionate about making a difference.

What to Expect:

As an intern, you'll work on meaningful projects, solving real-world challenges while contributing to BP's bold ambition of a sustainable energy future. With roles spanning across various fields—from engineering and trading to people and culture—you'll have the opportunity to showcase your skills in multiple disciplines. Whether you're supporting a key project or tackling pressing energy challenges, you'll be learning from industry experts and expanding your professional network.

Key Areas of Internship Opportunities:

- **Engineering:** Gain experience in mechanical, electrical, chemical, and process engineering disciplines.
- **Geology and Petrophysics:** Dive into exploration and production, working with cutting-edge technology to support energy solutions.
- **Trading & Shipping:** Work in one of BP's most dynamic business areas, gaining insight into the global energy market.

- People & Culture: Support our teams in fostering a collaborative and inclusive culture that drives our business.
- Production & Operations: Contribute to the operational efficiency of BP's global assets.
- And more...

What We Offer:

- Competitive salary: £33k to £43k per annum (pro-rata)
- Paid holidays
- Exposure to world-class professionals
- A variety of social clubs and activities to connect with colleagues outside of work
- Opportunities to contribute to BP's community initiatives

Application Process:

BP's application process is designed to ensure we select the best talent. From the online application to the interview stages, our recruitment team will guide you through every step. We recommend you start by exploring the roles available and applying to the one that best aligns with your passion and career aspirations.

Eligibility:

To be eligible, you must be in your penultimate year of study at university, pursuing a degree in a relevant field such as engineering, business, sciences, or economics. Strong analytical skills, passion for innovation, and a keen interest in energy are key to success in this programme.

About bp

bp is a global company that offers a world of opportunities for professionals as well as those starting out in their career. We're guided by our purpose and ambition to become a net zero company by 2050 or sooner, and help the world get there too.

What does this mean for you? It means you can expect purposeful work, world-class training and the flexibility to realize your full potential. Not to mention the chance to join a company committed to delivering more sustainable energy for all. Ready to crack on? Your perfect job match awaits.
