

Biddenden

HEART OF THE GARDEN
ENGLAND

Summer position available at Biddenden Vineyards

An exciting opportunity has arisen for a student to join our team for the 2025 summer season. A family owned and run business in the Garden of England, established in 1969, we are Kent's original vineyard with a highly respected reputation as trail blazers in the English wine industry.

This is a unique opportunity to fully immerse yourself in the day to day running of Biddenden, gaining invaluable insight and experience. Working within a small team in the vineyard, winery, office, shop and at offsite events, the role presents an exclusive opportunity to be involved across all areas of our business. From vineyard maintenance throughout the summer to harvest in September, helping with wine, cider and juice production in the winery and working throughout the busy summer season within customer facing roles, in our Vineyard Shop and representing Biddenden at a broad range of offsite events and tastings. No two days will be the same and there may be the opportunity to specialise later in the season for the right candidate.

We are looking for a hardworking individual who is keen to learn and be involved in all areas of the business, with a genuine interest in viticulture and the tourism sector. Experience is welcome but not essential and, above all, a keenness to learn, desire to enhance your skills and contribute proactively is most important.

This is paid, full-time position, from June to the end of September, with some additional weekend and evening work as required.

You must have your own transport due to the rural location. Single, self-catering accommodation is available on site to the successful candidate.

For more information, or to apply, please give us a call or send in your up-to-date CV with any previous work experience to admin@biddendenvineyards.co.uk 01580 291726
