

About the role

Carrs Agriculture are a global specialist of feed supplements for cattle, horses, sheep and goats. The manufacture and supply of nutritional supplements under well respected brands, including molasses-based feed licks and gradual-release boluses. These products help to improve animal health and enrich the diet of all types of farm animals.

The Group manufactures feed blocks in a variety of wholly owned and joint-venture facilities located across the UK, Germany and the USA. These products are supplied through a distribution network across the UK, Europe, Middle East, New Zealand and North America.

Our Graduate Scheme provides an exciting opportunity to grow alongside Carrs Agriculture across multiple key business functions- spanning commercial and end user relationship management, technical support, marketing and operations. It is a great opportunity for a newly qualified individual to develop skills. Working with recognised brands, in a rapidly evolving growth business.

Initially an 18-month programme, with potential to become permanent.

Key requirements

- Degree or equivalent in Agricultural or Ruminant Nutrition
