	Transport Manager
	Farm Managers
	Pack house managers and team     The Form Craduate is a bonds on birth anormy rate designed to give research graduates real
Role Summary	The Farm Graduate is a hands-on, high-energy role designed to give recent graduates real exposure to the full workings of a soft fruit farm. You'll rotate through core areas of farm operations — including harvest management, crop walking, labour planning, and farm
	systems — supporting managers while building your leadership, technical, and practical
	skills. This is a fast-paced, physically active, and people-oriented role suited to individuals
	who thrive outdoors, love problem-solving, and want to make a meaningful impact from day one. The role requires collaboration with other departments and a proactive approach to maintaining high standards in product handling and team performance.
Personal	Consistently showing high energy levels in a zero to hero, with an ability to inspire
	and uplift other team members.
Attributes	Proactive and forward-thinking, with a keen eye for detail.
	Able to work independently while contributing to a team-oriented culture.
	<ul> <li>Committed to continuous improvement and adapting to evolving business needs.</li> <li>Flexible and resilient under pressure, with the ability to manage competing</li> </ul>
	priorities
	<ul> <li>Have the practical intelligence to find solutions to problems, efficiently and</li> </ul>
	effectively
	<ul> <li>An ability to maintain a modest approach, and always willing to learn.</li> </ul>
	• Be highly emotionally intelligent having the aptitude to work within a multi-cultural, diverse and exciting business.
Principle	Arrive early to review harvest or operations plans and prepare for the day
Responsibilities	<ul> <li>Work alongside supervisors and managers to support picking, planting, irrigation, and tunnel management</li> </ul>
	<ul> <li>Attend daily briefings and contribute to team objectives with a solutions-based</li> </ul>
	mindset
	Help implement crop walking and reporting systems — observing pest, disease, and
	plant health issues
	<ul> <li>Assist with labour planning, timekeeping, and productivity tracking across harvest teams</li> </ul>
	teams

	<ul> <li>Monitor and record key data for yield, quality, and field performance</li> </ul>
	• Learn the ins and outs of the farm's growing systems, including tunnels, fertigation,
	and substrate
	<ul> <li>Get involved in project work across sustainability, trial crops, or new growing methods</li> </ul>
	<ul> <li>Communicate effectively with team members, supervisors, and support staff to ensure smooth operations</li> </ul>
	• Take responsibility for personal safety, and actively report hazards or incidents
	<ul> <li>Maintain a clean, organised, and safe working environment in the field and around shared areas</li> </ul>
	<ul> <li>Embrace continuous improvement and take ownership of small-scale efficiency initiatives</li> </ul>
Experience and	<ul> <li>Proven experience operating machinery, ideally in a fresh produce environment</li> </ul>
	<ul> <li>Competent in using, setting, and maintaining machinery</li> </ul>
qualifications	<ul> <li>Experience in following and documenting safety, quality, and operational procedures</li> </ul>
	Ability to support and train team members in machinery operations
	<ul> <li>Exceptional organisational skills and the ability to multitask in a time-sensitive setting.</li> </ul>
	<ul> <li>Analytical mindset with strong problem-solving skills.</li> </ul>
	Effective communication and collaboration abilities to liaise with cross-functional
	teams
	Familiarity with soft fruit production and packaging processes (preferred but not
	essential)
