

# ROYAL AGRICULTURAL UNIVERSITY – STUDENT/GRADUATE JOB VACANCY

To enable placements/vacancies to be advertised correctly please complete the following:

**Name of Employer:** Regenified

**Vacancy Type:** Full Time Contract to Permanent

**Full-time/Part time :** Full-time (40 hours); Some weekends

**Start date:** Immediately

**Background:** At Regenified, our mission is to safeguard the integrity of regenerative agriculture, ensuring it is much more than a fleeting trend. We honour and reward farmers committed to adopting ecosystem-restoring practices, as well as brands setting the standard for transparency and regenerative sourcing. Our aim is to transition global supply chains to regenerative agriculture by offering the most trusted standards and verification services. Our standards are approved by some of the largest grocery chains worldwide, and we actively verify large tracts of farmland producing a diverse range of crops, proteins, and produce.

**The Role:** Field Verifier

Regenified is seeking a dedicated and detail-oriented **Contract** Field Verifiers and Auditors to join our team. The Field Verifier will carry out comprehensive field assessments of farms and agricultural operations. This role is essential to ensure that farms meet Regenified's rigorous standards for regenerative agriculture.

## Key Responsibilities

- Field Assessments
  - Conduct on-site visits to farms to evaluate compliance with Regenified's regenerative agriculture standards.
  - Collect soil, water, and plant samples for laboratory analysis.
  - Observe and document farming practices, including crop rotations, soil management, and biodiversity efforts
- Verification and Reporting
  - Verify information provided by farms through interviews, observations, and sample analyses.
  - Prepare detailed, accurate reports, highlighting compliance levels and areas for improvement.
  - Work with the certification team to finalise verification outcomes and provide constructive feedback to farms.
- Stakeholder Engagement
  - Liaise with farmers, agronomists, and other stakeholders to explain verification processes and standards.
  - Offer guidance and support to farmers on implementing and maintaining regenerative practices.
  - Participate in training sessions and workshops to stay updated on the latest regenerative agriculture techniques.
- Data Management
  - Maintain accurate and organised records of field assessments and verifications.
  - Use digital tools and software for data collection, analysis, and reporting.

- Ensure the confidentiality and integrity of all collected data.

## Qualifications

- A degree or relevant experience in Agriculture, Agronomy, Environmental Science, or a related field.
- A minimum of 3 years experience in agricultural fieldwork, with a focus on sustainable or regenerative practices.
- Strong knowledge of regenerative agriculture principles.
- Excellent observational, analytical, and reporting skills.
- Willingness to travel extensively across the UK and Ireland, with occasional international travel.
- Competency in data collection and reporting tools.
- Proficiency with digital tools, including Google Workspace and mapping applications, with the ability to learn new technologies quickly.
- Ability to lift up to 25 kilograms.

## What We Offer

- Competitive hourly compensation with travel expenses covered.
- The opportunity to work with a passionate team driving positive change in agriculture.
- Continuous professional training opportunities.
- A chance to make a meaningful impact on the future of farming and the environment.
