

WE ARE  
SEEKING AN  
**ARABLE  
OPERATOR**  
LINCOLN, LINCOLNSHIRE

### **About us**

We are a family-run business farming approximately 1,200 acres near Lincoln. Our arable rotation mainly includes cereals, OSR and spring beans, alongside a herd of 120 pedigree Lincoln Red cattle.

### **The Role**

We are looking for a motivated and experienced individual to join us as an arable operator. This is a key role within the business, with responsibility for the day-to-day undertaking of arable operations.

The successful candidate be an integral part of drilling, harvesting, fertiliser applications and general arable work. They will be comfortable maintaining machinery, equipment and a tidy, safe working environment. All crop spraying is currently carried out by external contractors.

In addition to arable responsibilities, the role will include involvement with the livestock enterprise, particularly during the winter months. The successful candidate will also support the livestock manager during busy periods with calving, turnout, maintenance of fencing etc.

### **Skills & Experience**

- Proven experience in arable farming operations
- Competent machinery operator with good mechanical knowledge
- Organised, reliable and able to work under own initiative
- Comfortable taking responsibility and ownership of tasks
- Willingness to assist with livestock work as part of a mixed farming system
- Able to work effectively as part of a small, close-knit family team
- Comfortable operating John Deere GreenStar

### **The Person**

This role would suit someone practical, proactive and dependable, who enjoys responsibility and takes pride in their work. You should be comfortable working independently while also contributing positively to a small team environment.

### **Employment Options**

We are open-minded about how this role is structured and would welcome applications from:

- Employed candidates (full-time or part-time)
- Self-employed or flexible-hours candidates

Remuneration and working arrangements will be discussed based on experience and preferred working model.

Please get in touch to discuss the role further or email a CV to
