

ROYAL AGRICULTURAL UNIVERSITY – STUDENT/GRADUATE JOB VACANCY

To enable placements/vacancies to be advertised correctly please complete the following:

Name of Employer: Soil Capital

Vacancy Type: Part-time (Spring 2026 - Winter 2027)

Full-time/Part time : Part-time uncapped hours starting at 10 hours total

Start date: June 2026

Background: With extensive expertise in regenerative agriculture, Soil Capital is a mission-driven firm dedicated to low-carbon farming. Founded in 2013 by 3 farming and finance specialists, the company rebranded in 2019 to launch Europe's first certified carbon payment programme, to accelerate the regenerative transition. <https://www.soilcapital.com/>

The Role: Part-Time Arable Data Assistant

This is a nearly entirely remote job role (95%+), whereby you will be assisting farmers with inputting their stubble-to-stubble arable rotations onto our mySoilCapital platform (similar to that of common FMIS systems such as Gatekeeper, MuddyBoots, Omnia etc). This is most commonly done via video call with the farmer, however, sometimes it will be over the phone or e-mail. You will be liaising with up to 50 farmers and will be given full paid training, with a specific point of contact in Soil Capital to assist you with queries and deal with administrative tasks. A working knowledge of arable agriculture and basic computer skills are of great advantage.

Responsibilities

- Collect and input farm data (e.g. crop rotations, fertiliser applications) into the mySoilCapital platform
- Work directly with farmers to understand their practices and gather accurate information
- Review and validate data for completeness and consistency
- Liaise with our Carbon Assessment team to resolve data gaps or errors
- Ensure all tasks are completed on time to meet strict reporting deadlines
- Provide feedback and suggestions for the improvement of Soil Capital's services.

Flexible hours starting at 10 hours (uncapped) a season, total timescales. Possibility of working multiple seasons with most intense periods being over the Autumn and Winter months.

Degree: N/A

Permanent/temporary: Self-employed work with the possibility to work multiple seasons

Location: Remote

Personal requirements:

- Have an agricultural background or farm-level experience (farming, agronomy, farm admin)
- Are available part-time from the spring into autumn and winter months (flexible schedule)

- Are detail-oriented and methodical with good data entry skills
- Are comfortable working remotely and independently
- Communicate clearly and professionally. Fluent in English and comfortable discussing farm operations
- Can meet firm deadlines and manage time effectively

Other requirements:

Salary/Package: Competitive payment structure starting at £50 per assessment up to £150 (self-employed, flat rate, approx 2 - 3 hrs)

How to apply: Please email a CV and an overview of your agricultural experience to Emily Lewis - e.lewis@soilcapital.com

Contact Name and Position: Emily Lewis, Carbon Assessment Specialist

Email Address: e.lewis@soilcapital.com

Telephone Number: +44 7488891009

Closing Date for applications: 15th June 2026
