

We're dedicated to farming's future. **Join us.**

We work hard to provide farmers and their advisors with the innovative products, advice and support they need. Our success is built on a reputation for developing solutions and building partnerships throughout the food chain. It's this passion for what we do that makes working for Bayer so rewarding.

Temporary Trials Agronomists—Fixed term contract

(March-September 2021)

In this role you would be working with full time Development Agronomists in their appointed region to help them conduct field trials on commercial farms on a range of arable and fruit crops to evaluate new crop protection products.

The role would ideally suit agricultural or life science students or recent graduates looking for experience within the agricultural industry although candidates with other qualifications would be considered if they demonstrated the appropriate aptitudes.

Benefits include:

- // NPTC units PA1 and PA6 training
- // Salary of £19,500 (pro rata)
- // Car for business use

4 locations are available:

- // Cambridge
- // Cirencester
- // Doncaster

Successful candidates would need to demonstrate:

- // An aptitude for working out of doors and sometimes on their own
- // Resourcefulness
- // A willingness to work irregular hours and sometimes at weekend, especially during harvest
- // Competence at driving

Interested candidates should send a CV and covering letter to Tom Harries, Team Leader Agronomist (Email: tom.harries@bayer.com. Mobile: 07958 219781)

Bayer's policy in the UK is to treat all applicants fairly and equally regardless of their sex, sexual orientation, marital status, race, colour, nationality, ethnic or national origin, religion, age, disability or union membership status.
