Massey Feeds is a progressive family owned business that has been trading for over 140 years. The Massey family have been operating the business for 5 generations.

Massey Feeds manufactures animal feed in the North West of England. We have mills in Lancashire and Cheshire but our area of operation stretches from Carlisle to Hereford and Anglesey to Leicester. We are an integral part of the food chain, working in partnership with the local farming community

We recognise the challenges of food production and the special place that land and livestock farming has in the community.

Our team of trusted, respected, reliable account managers provide practical animal husbandry advice and innovation to the farming community as they seek to add value and promote profitability.

We have an exciting opportunity for someone to join our highly successful Monogastric team to help support and develop our business. We are looking for someone who is keen to develop a career in the Animal feed sector, who is highly motivated with strong interpersonal skills.

Massey Feeds is a caring, innovative company and as such, we need people who bring passion, enthusiasm and new thinking.
