

ROYAL AGRICULTURAL UNIVERSITY – STUDENT/GRADUATE JOB VACANCY

To enable placements/graduate vacancies to be advertised correctly please complete the following:

Name of Employer: Redview Jerseys

Vacancy Type: Spring to Fall work, very flexible

Full-time/Part time : Full time hours, with every other weekend off. Also flexible if wanted a week holiday

Start date: Beginning of May (flexible)

Background: We are a father-daughter run dairy farm. We milk 68 purebred jersey's in a tie stall barn. Our cows pasture all summer and fall around the farm. We do all our own field work, which includes doing our own planting, haylage, corn silage and straw. We are also both very involved with the dairy industry, with Alain Remond as a board member on the Dairy Farmers of PEI milk board, and myself (Deanna Doctor) on the board of directors for Jersey Canada. We are very passionate about the jersey breed and the future of dairy farming in Canada. We have equipment to help make our day to day easier, but alas we are milking in a tie-stall. Employees will be expected to do most milkings along with one of us, with set days off. You will have access to a vehicle during times off, be fed very well and room and board will be covered. We are 10 minutes away from national parks, beaches and 25 minutes away from Cavandish. We also have a waterfront cabin that is located 10 minutes from the farm, and you will be able to have access to it on weekends off. We really try to balance enjoying life with work.

The Role: Looking for someone who has strong animal husbandry skills, good mechanical skills, as well as driven tractors before. You definitely need to be work motivated, although we will never ask you to do any work we wouldn't be doing alongside you. Like in any farm job, there are long hours during harvest, so you must be willing to work until the job is done. Thankfully that is few and far between. There are also 4 kids ages 7 and under. You won't be asked to watch them, but they are around and active on the farm. Open to helping you expand your skill set on breeding, selecting bulls, making culling decisions, medical interventions and other daily tasks to make you a well rounded dairy farmer.

Degree:

Permanent/temporary: su

Location: 594 Irishtown Road, Kensington, PE COB 1M0

Personal requirements: A good work ethic, and willingness to learn.

Other requirements: must have a work visa for Canada (open communication on both ends to help get this completed in a timely manner)

Salary/Package: Weekly salary open for discussion based on skill set, as well as all accommodations, food and access to a vehicle covered.

How to apply: please email your resume to deeremond@gmail.com as soon as possible

Contact Name and Position: Deanna Doctor - farm owner

Email Address: deeremond@gmail.com

Telephone Number: 902-439-4892

Closing Date for applications: May 15, 2024
